

Bad Honnef Physics School

Supported by the Wilhelm and Else Heraeus-Foundation

Atmospheric Physics: Experiment meets Modelling

April 29 – May 3, 2019, Physikzentrum Bad Honnef, Germany

Organised by

Christian von Savigny (University of Greifswald) and Justus Notholt (University of Bremen)

For PhD and Master Students

Topics and Lecturers

Physics of stratospheric processes

Martin Dameris, DLR Wessling
Claudia Timmreck, MPI Hamburg

Atmospheric remote sensing

Susanne Crewell, U Cologne
Justus Notholt, U Bremen
Ulrich Platt, U Heidelberg
Christian von Savigny, Uni Greifswald

Chemical composition measurements

Ralf Koppmann, U Wuppertal
Andreas Richter, U Bremen
Wolfgang Steinbrecht, DWD Hohenpeißenberg

Laboratory studies and thermodynamic foundation

Axel Kleidon, MPI Jena
Thomas Leisner, KIT

Physics of the middle and upper atmosphere

Erich Becker, Leibniz-Institut Kühlungsborn
Miriam Sinnhuber, KIT
Claudia Stolle, GFZ Potsdam

Fees:

Covering full board and lodging at the Physikzentrum Bad Honnef
200 € (for DPG members 100 €).
