Early Career Award

Do you know of an early career researcher that has made an outstanding contribution to the scientific community?

Nominations are now open

The *New Journal of Physics* (NJP) Early Career Award recognises the talents of exceptional young researchers, who are making a significant contribution to their respective field of research.

Nominee criteria

The award is open to all researchers working in the physical sciences who meet the following criteria:

- Early-career scientist (less than five years since PhD qualification - i.e. defended in 2017 or thereafter - allowing for career breaks)
- Author of at least one article published in/submitted to/accepted for publication in NJP in the 12 months prior to the award closing date of **15 May 2022**.

The winner will be announced in September 2022 and will receive a prize of €3,000, plus one full APC waiver to be used in NJP by the end of 2023. The winner will also be entitled to a 50% APC waiver on the next two papers in NJP, and an official NJP Early Career Award certificate. Please note, in the event of more than one winner elected, the prize will be shared accordingly.

Find out more about the award and how to nominate one of your colleagues by visiting our dedicated landing page: www.njp.org/early-career-award
